

[APAVJ - Information, sensitization and prevention of the infantile and youthful victimization.](#)

APAV launches a new initiative with the aim to sensitize the community for the problems related to violence and its surroundings causes and effects. A new website was launched in order to explain to the children and youngsters the type of violence that can be present at home, in the street, in the school and in the Internet as well as how to protect themselves effectively from it. For more information please refer to: www.apav.pt/apavj.
